The Schools Challenge Novice and Game Day

The Schools Challenge continues to go from strength to strength.

The biggest growing part this year will be the **novice day courses** run in the Easter and summer holidays designed for the youngest who have never shot, or who have shot a little before, to spend a day at the Oxford Gun Co shooting school to learn the basics of shot gun shooting - a good fun day out but you will learn a lot.

Dates to be announced but limited places available.

We also have the **ultimate schools challenge** of the year - the schools challenge game day. It is a two day course in December and last year it was over subscribed so get in quick this year!
